DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-4 7-17 and 21-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nagai (U. S. Patent no. 6,296,237) in view of Nakaura (U. S. Patent no. 5,257,730).

Nagai discloses:

See figures First flexible member 38, second compressible member 12, ring 14.

Regarding claims 7-9, see column 3 lines 60-61.

Regarding claims 13-15 and 25-27, see column 7 lines 35-40

Nagai does not disclose the first member as cup shaped. Nakaura teaches a first member as cup shaped (cup shaped member 28). It would have been obvious to one of ordinary skill in the art at the time the invention was made to make the first member of Nagai cup shaped as taught by Nakaura as such is merely a design choice. The shape of the first element as a cylinder or a cup does not have a significant impact on the function of the device.

3. Claims 5,6,18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nagai, as modified.

Nagai is relied upon as above. Nagai does not disclose the specific materials claimed.

Nagai does disclose the use of urethane. It would have been obvious to one of ordinary

skill in the art at the time the invention was made to use microcellular and thermoplastic urethane in the device of device of Nagai as both are well known materials and their selection is merely a design choice based on factors like cost, durability, spring rate, ease of assembly, and environment of use.

Response to Arguments

4. Applicant's arguments filed 5/24/06 have been fully considered but they are not persuasive. Applicants argue that none of the references should the rigid ring having a height less than that of the first flexible member. This is incorrect. Nagai clearly shows rigid ring 14 to be shorter than first flexible member 38.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
